Introduction

London is a global hub of art, politics, commerce and finance but perhaps, above all, innovation. This is why Insider London seeks to delve beneath the surface of the capital's success with in-depth visits to the city's most innovative businesses.

We meet the talented individuals behind the brands to discover the story of unique companies— past, present and future. With engaging presentations tailored to the specific academic and professional interests and requirements of the group, this is a great opportunity for both academic and corporate groups.

Inspire your groups with real-life success stories and hands-on experience with innovative technology

Freshen up your boardroom meeting with a research trip to an innovative hub and take your business to a new level with some great new ideas and insight.

We specialise in innovation from a wide variety of sources. From AI to blockchain, finance to fintech, hospitality to architecture, we meet the star players across a wealth of sectors.

We have extensive partnerships with some of the world's leading global corporates as well as London's rising stars who keep the established brands on their toes.

Combining data-driven intelligence, innovation, and creativity, they craft powerful marketing solutions that drive business performance and deliver behaviour-changing results.

Their comprehensive suite of services and cutting-edge technology ensure that they stay ahead of the curve, delivering innovative solutions that help businesses thrive. Their client include Microsoft, LinkedIn, Dropbox, Salesforce

Topham Guerin

INSIDER
— LONDON —

In a world where perception is everything, Topham Guerin has emerged as the guiding force in political communication. With a global footprint, Topham Guerin has worked with prominent leaders and organisations worldwide to transcend borders and offer a universal model for effective communication in the modern political arena.

But Topham Guerin's reach goes beyond politics. They have worked with small startups and multinational corporations alike, delivering impressive results every time.

Bywaters

INSIDER
— LONDON —

With a heritage spanning over 70 years, Bywaters has been at the forefront of driving positive change in environmental practices. Their comprehensive range of services includes recycling, waste collection, and sustainable energy solutions, all geared towards minimising environmental impact and promoting a circular economy.

Their state-of-the-art facilities leverage cutting-edge sorting and processing technologies to maximise resource recovery and minimise waste sent to landfills. By harnessing the power of automation and data analytics, Bywaters ensures optimal efficiency and sustainability across their operations.

Fashion Enter

INSIDER
— LONDON —

Visit Fashion Enter to see for yourself the whole clothing manufacturing production process.

At Fashion Enter, sustainability is key. The company's CAD room ensures that garment cutting is optimised to reduce wastage and maximise quality.

The company minimises inefficiencies and reduces costs by providing employees with a phone to digitise production, making sure that each employee is accountable for their work. With its innovative technologies and commitment to sustainability, Fashion Enter is the perfect partner for clients looking for high-quality and ethical garment production.

Tackling one of the greatest challenges of our time, Agribot is a tech company with a difference. Using precision agriculture to identify problems early, maximise efficiency and optimise yields, Agribot use AI and real-time satellite data to help solve the global food crisis.

Agribot is part of the CKX group - the international pioneers of AI building bespoke solutions for a variety of sectors and governments all around the world.

Holywell Studio

INSIDER
— LONDON —

Located in the heart of Shoreditch, East London, Holywell Studio is a boutique recording and creative space founded by artist-producer Jennings Couch. Since its inception in 2021, the studio has evolved from a dedicated music production facility into a versatile hub for recording, mixing, mastering, and collaborative projects.

Known for its intimate atmosphere and carefully curated design, Holywell blends professional-grade audio equipment with a welcoming, stylish environment.

New Genre

New Genre is a global design and technology studio working with ambitious brands to create strategies, identities, and experiences that stand out and scale. Their multidisciplinary team combines brand strategy, digital product design, creative production, and marketing expertise to deliver work that is both imaginative and precise.

Projects range from brand systems and full-stack digital builds to immersive campaigns, 3D production, and integrated marketing. New Genre's approach blends big-picture thinking with meticulous execution, helping clients launch, grow, and transform in a fast-changing world.

Using the latest IoT technology, Unifi.id is transforming sustainability, safety and building management. Unifi.id helps businesses to understand their real building usage to cut energy costs and slash carbon emissions the smart way. From RFID smart cards to facial recognition, their innovative solutions can enhance evacuation safety protocols.

Come and discover Unifi.id at their base in Level 39, at world centre for Internet of Things technology at 1 Canada Square, Canary Wharf.
